

## PERMISSION OF INSTRUCTOR

A student who believes to have the knowledge and background required for a particular course, but who does not meet all of the course prerequisites, may petition the department involved for permission to enroll in the course. The petition must be presented to the department involved not less than two weeks (14 days) prior to the first day of class of the quarter.

The chairs will understand, of course, that as part of implementing this policy the phrase “or permission of the instructor” should be dropped from all written course prerequisites. It is left to the individual chairs to put into place a department process for implementation of this college policy.

Authority:      Approved by faculty vote on March 8, 1991.

Developed by the College Curriculum Committee and approved by the College Steering Committee February 1991.
