SUMMER COURSES

Summer course offerings can vary from year to year. Do not make plans based on past history of courses offered. The summer schedule comes out in February each year. It is recommended that you meet with your academic advisor regularly to ensure you have the best possible academic plan.

NOTES:

- Advising is mandatory in order to assure timely completion of the program.** Please see an advisor as soon as possible to ensure enrollment in the proper courses. **Students are expected to take courses sequentially and in the term listed on the program guide.**
- In the right hand columns, (★) denotes the model schedule for a full-time student, (a) denotes "tentatively available", and (•) denotes "not available"**
- The course number in parentheses denotes a prerequisite course.** A course number followed by "c", such as (PHY ####c), denotes a co-requisite (can or must be taken at the same time). **Pre-requisites can change over time and after a grace period, you may be required to meet the new pre-req requirements. Meeting with your advisor regularly and checking your WSU email will keep you informed of changes.**
- See the Undergraduate Catalog for the Wright State Core requirements
- In addition to ENG 1100 and EGR 3350, all students are required to complete two Integrated Writing "iw" courses from the Wright State Core. These may include the "iw" course EGR 1010. Students must also complete two Multicultural Competence courses "MC" courses from the Wright State Core. Refer to the university catalog for additional information
- (MRE) denotes "Materials Related Elective"** to be selected from an approved list available on the Mechanical and Materials Engineering Department web page or in the department office
- (TE) denotes "Technical Elective"** to be selected from an approved list available on the Mechanical and Materials Engineering Department web page or in the department office. It is acceptable to take an additional MRE course to fulfill the TE requirement. It is possible to use an internship to replace one TE course. Please see your advisor for internship requirements. Courses will not be double counted in the TE and Track course area.
- (MPL Score of 40 or ACT Math 25) and Trigonometry in High School.
- A grade of **"C" or higher** is required in ME 2120 and ME 2700 in order to take follow-up courses.
- A C or higher grade is required in ENG 1100 and MTH 2310 to take EE 2010. PHY 2410/lab can be a pre- or co-requisite course.
- Engineering Design, ME 4910 and 4920 or EGR 4910 and 4920 must be taken sequentially. In addition, students must pass the integrated writing component of the Capstone Design courses. Open to seniors during their final year of coursework. Prerequisites include: ME 1040, ME 3600, ME 3760, ME 4620 (pre or co-req), ME 4720, ME 4750, MTH 2320, MTH 2350, and PHY 2410/2410L. Students who do not successfully complete ME 4920 must start the sequence over with ME 4910. For timely completion of degree, it's important that track and elective courses are taken after completing Capstone pre-requisite courses.
- A grade of **"C or higher"** is required in ME 3120 to take ME 4860 (Metal Forming).
